

HANSE 675 HULL #14

This boat looks like new.

Fully serviced, it was out of the water for a major overhaul with over €250,000 in improvements spent. This Hanse 675 had most imaginable upgrades since new: in boom furler (new sensors installed in 2024 fully serviced), bigger engine Volvo Penta 230 (new in 2022), faster and upgraded chargers (new in 2024), B&G electronics (new in 2024), state of the art compressor tank, outside electric grill, solar panels, plastic glass on spray hood (new 2023), anti fouling (new in 2024 and good for two seasons), 12 battery bank (enjoy air condition in quiet mode without the generator on all the time)(new in 2024), automatic generator (it automatically starts when the batteries go down in charge to 60%).

All mechanicals and electronics were serviced and inspected in dry dock in 2024, new sensors on gray and black water tank were installed. But it gets better, brand new performance sails (black!). Tender Jet Williams 100 also in impeccable condition and fully serviced (it is stored with an expert for winter maintenance since new).

The Hanse 675, unlike its smaller siblings is a semi custom boat. The wood work is extraordinary as well as the upholstery, and the interior space the best for its size with 4 big cabins (two doubles and one triple for crew aft) and big separate kitchen (which also has AC for a more comfortable cooking when done with the owner). At sea it handles incredible well, you won't find a more smooth sailing experience on similar boats, it has done 10 knots with the main and jib and up to 12 knots with the spinnaker (almost new with very little use).

Self-takin jib and in boom furling makes it perfect for single handed sailors. Anchor can be dropped from the cockpit.

GENERAL PARTICULARS

LOA 21.10M
 BEAM 5.90M
 DRAFT 3.10M
 BUILT 2017
 FLAG GRE
 ENGINES 1 x VOLVO PENTA D4 (230HP)
 Engine hours: 1223 (Nov. '23)
 SHAFTS 4 blade folding propeller
 SPEEDS 8.5kts (cruise) / 10kts (max)
 VERSION 3 Cabins, 3 Heads, 1 Crew
 Tanks Water tanks 1000L
 Diesel tank 1100L
 Black water 185L

RIGGING

Genoa tracks with pin stop cars
 Mast, aluminium painted, color T9232
 Boom with in boom furling system,
 RECKMANN "Furl finder" hydraulic, upgrade
 Backstay tensioner, standard, hydraulic
