WiderCat 76

Privilege of the Future

Experience the privilege of embracing the future and transcending new horizons. WiderCat 76 unlocks the gateway to the visionnaires' world.

Sperimenta il privilegio di abbracciare il futuro e trascendere nuovi orizzonti. WiderCat 76 apre le porte ad un mondo di visionari.

Much more than a catamaran.
The allure of a superyacht with the
agility of a smaller craft. A fusion
of sharp design, technology and
craftsmanship.

Molto più di un catamarano: il
fascino di un superyacht e l'agilità
di un'imbarcazione di piccole
dimensioni. Una fusione di design,
tecnologia e artigianalità.

An embodiment of Wider yachting's pure essence: the pursuit of innovation, technological progress and space design.

L'espressione dell'essenza Wider: la ricerca dell'innovazione, il progresso tecnologico e il design degli spazi.

Preliminary

The background is an abstract composition of dark teal and deep blue tones. A prominent, bright, diagonal streak of lighter teal and white light cuts across the frame from the top left towards the bottom center. The overall texture is grainy and painterly, with various shades of blue and green creating a sense of depth and movement.

The Wider Vision

+

Architects of the future. Ingenious and reliable. Every approach is revolutionary, from the design to the engineering, there is only one goal: narrow the gap between present and future.

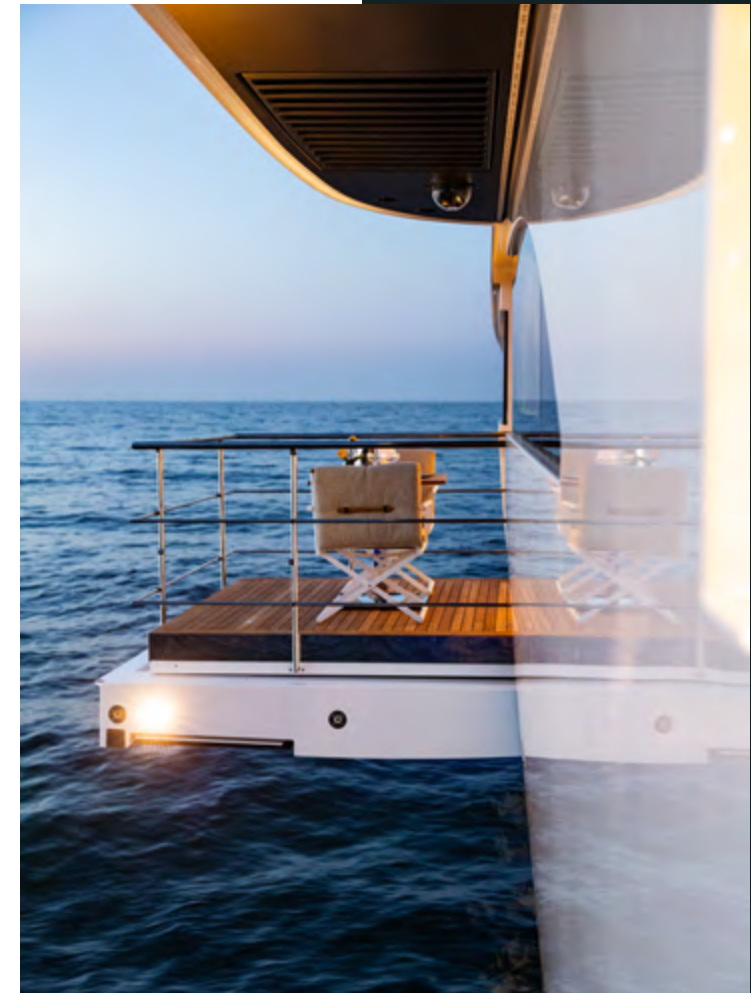

Architetti del futuro. Ingegnosi e solidi. Dirompenti in ogni approccio, dal design all'ingegnerizzazione, c'è soltanto un obiettivo a cui puntiamo: restringere il divario tra presente e futuro.

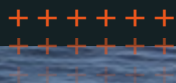

Superyachts

Big challenges need big and dedicated solutions. As well as catamarans, Wider designs and builds multiple award-winning superyachts that combine hyper-efficient serial hybrid propulsion —the first to be used in pleasure yachting— with large spaces on-board, featuring unmistakable Italian craft.

Le grandi sfide hanno bisogno di grandi e dedicate soluzioni. Oltre ai catamarani, Wider progetta e costruisce superyacht multipremiati che combinano una propulsione ibrida seriale iper efficiente - la prima ad essere stata usata nella nautica da diporto - con ampi spazi a bordo. E un'inconfondibile maestria italiana.
